

**EDUCATION ON CALL**

# Fever Tracker

There are many factors that indicate the severity of a fever, such as age, duration, and how often a child has one. Use this chart to keep track of your child's fever history to inform your conversations with your pediatrician.

Complete a line every time you take your child's temperature or administer fever-reducing medication. To help you remember, store this paper with your child's thermometer and medicine bottle.

**Child's name:** | \_\_\_\_\_

**Age:** | \_\_\_\_\_

**Method (circle one):**

**Ask your pediatrician** to recommend the best method for taking your child's temperature.

Date	Time	Temperature	Medicine	Dosage	Symptoms

**Keep in mind** that you know your child best. If you feel that something is wrong, always follow your instinct and call the doctor.

For aches, pain, and fever, **TYLENOL®** and **MOTRIN®** are
